

How To Draw Robotboy

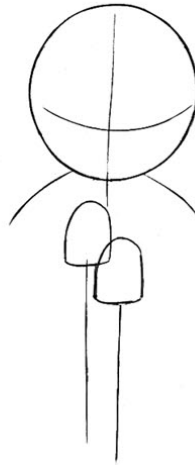

1

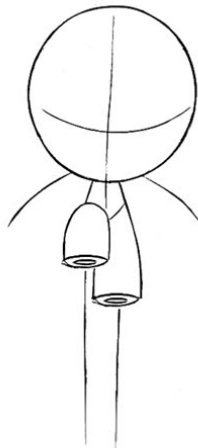

Start by drawing a circle and two overlapping bell shapes just below it.

2

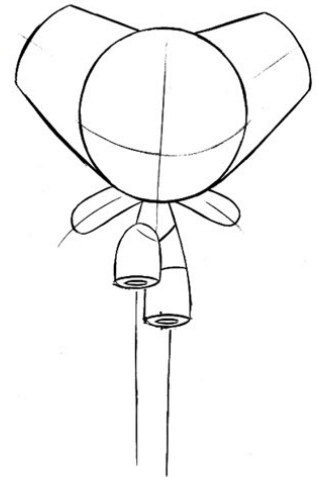

Now add guide lines to the circle, and guide lines for the arms and flames.

3

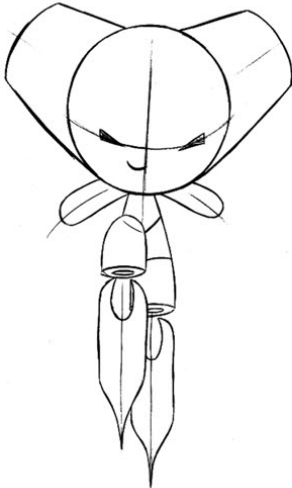

To make a leg, draw a circle at the bottom of one the bell shapes with a smaller circle inside of it, then repeat on the other leg. Add two lines to connect the legs to the body.

4

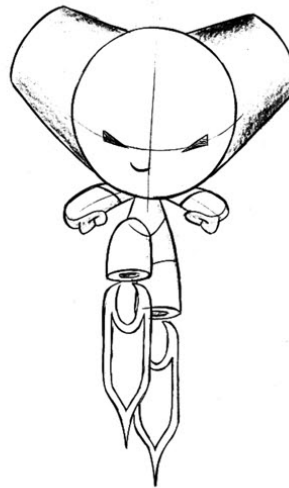

Now add on some big Robo-ears and thicken up the arms.

5

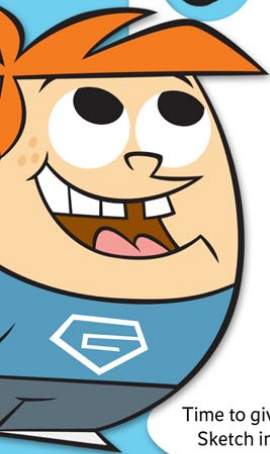

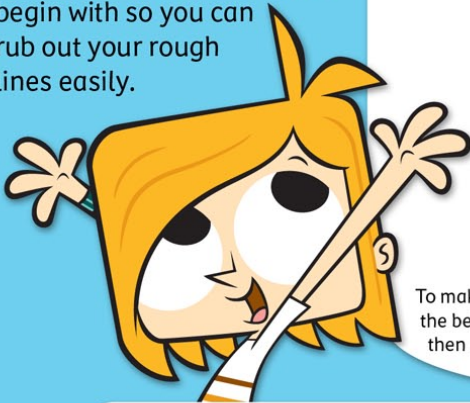

Time to give Robotboy some eyes and a mouth. Sketch in some flames underneath the feet.

6

Now draw in his hands, finish the flames and add some shading to the rest of the body. Colour him in and your Robotboy is ready!

You will need: A pencil, a piece of plain paper, an eraser, black marker pen and colouring pens. You should remember to draw lightly to begin with so you can rub out your rough lines easily.
